Summary

Organized and self-motivated graduate with **combined 9 months internship experience**. Proficient in **NestJS, Node.js, SQL, and JavaScript**, with hands-on experience working with **MongoDB** and **SQL Server**. Continuously improving technical skills through college coursework and online bootcamps. A reliable and responsible team player with a strong commitment to learning and collaboration.

Technical Skills

Languages and DataBases: C++, php, HTML, CSS, JavaScript, TypeScript, MySQL, MongoDB

Framework & Other Skills: Proficient in NestJs, NextJs, CodeIgniter, React.js, Node.js, Tailwind css, Git, GitHub

Experience

Codeb Solution Pvt (Intern)

feb 25 – may 25

Mple-ai

Mumbai, India

- **Backend API Development:** Designed and developed RESTful APIs using **NestJS** and **TypeScript**, following modular architecture patterns that enhanced code readability and maintainability.
- **Web Application Development:** Built dynamic, server-side rendered applications using **Next.js**, leveraging **incremental static regeneration** and **server components** to improve load times and SEO.
- **Database Design & Optimization:** Integrated **MongoDB** with optimized schema designs and high-throughput queries to improve data access speeds under load.
- **Full-Stack Solutions:** Delivered complete solutions using the **MERN stack**, improving system scalability and delivering user-friendly interfaces.
- **Performance & Optimization:** Focused on both backend and frontend performance enhancements to ensure reliability and responsiveness for end users.

SlashRTC (Intern)

Nov 24 – Jan 25

Admin-Panel

Mumbai, India

- Developed an admin panel using CodeIgniter 4: Implemented user access levels, allowing admins to add and remove other admins, and integrated a secure login/logout authentication system.
- Built backend functionalities with PHP and CodeIgniter: Created robust features for admin management and authentication, ensuring smooth and secure user interactions within the admin panel.
- Integrated chat feature in admin panel: Designed and implemented a real-time chat feature, enhancing communication and collaboration among admins within the platform.

Show booking app

Mumbai, India

- Developed a movie ticket booking web application similar to BookMyShow with user-friendly ticket booking features.
- Designed and implemented an admin panel for adding, updating, and deleting movie listings and bookings.
- Utilized the **CodeIgniter MVC** framework to ensure clean architecture and separation of concerns.
- Led the full development lifecycle including requirement gathering, coding, testing, and deployment.

Course / Certificates

Qspider/Excelr

April 22 - May 24

- Successfully completed the **Java Full Stack Development** course at **QSpiders**, gaining expertise in backend and frontend technologies.
- Successfully earned certification through courses, demonstrating commitment to continuous learning and professional development <[link](#)>

Education

Mumbai University

June 20 – May 24

Bachelor of engineering in electronics and telecommunication

Mumbai, Maharashtra
